Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 6/1, and 8 are rejected under 35 U.S.C. 102(b) as being anticipated by Schmitz (United States Patent No. 3,724,076).

Schmitz discloses a syringe comprising a syringe tube 30 having an outlet nozzle 36 constructed in one piece therewith, a material container 40 having open ends disposed in the syringe tube, a piston 46, a handle 72 disposed on the syringe tube at an opposite end from the nozzle and connected thereto by means of a thread 26. The container has a closed lateral surface around its axis and has an external diameter substantially equal to that of the internal diameter of the syringe.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 2, 3, 5, and 6/2, 6/3, 6/5 are rejected under 35 U.S.C. 103(a) as being unpatentable over Schmitz in view of Muller et al (United States Patent No. 5,875,928).

Art Unit: 3732

Schmitz discloses the invention essentially as claimed except for the container including a plug disposed at the end thereof and moveable between the ends of the container by the piston. Muller discloses a dental material container 11a having a plug 25 disposed at the end thereof and moveable between the ends of the container by the piston (see figure 4 and col. 3, lines 27-43). It would have been obvious to one skilled in the art to provide the container of the device of Schmitz with a plug disposed at the end thereof and moveable between the ends of the container by the piston in view of Muller et al. in order to close off the end of the container and prevent leakage of the material therefrom and also prevent the plunger from contacting the material in the container.

Response to Arguments

Applicant's arguments with respect to claims 1-3, 5, 6, and 8 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 3732

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
